Q14: Which of the following comes closer to your view about the U.S. economy?

Statement A: The main problem with the economy right now is high prices that are putting pressure on families. If we can get inflation under control and bring down everyday costs, the economy will be working for most Americans again.

Statement B: The economy has deeper problems than just high prices for everyday essentials. For too long, the system has favored the wealthy and large corporations at the expense of working families. Bringing down prices is important, but what we really need are fundamental changes so the economy works for everyone, not just those at the top.

Q16b: Below is a description of a candidate's economic agenda. Please indicate on a scale from 0 to 10 how much this candidate appeals to you. On this scale, a lower number such as 0, 1, or 2 means that the candidate does not appeal to you at all, and a higher number such as 8, 9, or 10 means that the candidate is very appealing to you.

[WINNING POPULISM AGENDA] We need to fundamentally change our economy so that it works for everyone, not just those at the top. My goals are to…

- Crack down on price gouging and other things corporations do to keep prices high just to pad their profits.
- Take on the system of corruption that allows billionaires and big corporations to have outsized power and influence over our political and economic systems.
- Help more people reach the middle class and maintain a middle-class life.
- Make sure that everyone who works hard can have a decent life with a little breathing room to pay bills and save for the future.
- Put the interests of working- and middle-class Americans ahead of billionaires and big corporations.
